## MIRROR WINS G.W. V.A. SILVER CUP

The Mirror Canadian National baseball team were returned winners at the baseball tournament at the Red Deer exhibition last week, and besides taking the \$200 purse, they also laid claim for a silver trophy and a case of silverware.

The final game at Red Deer on Wednesday last, developed into one of the most exciting and thrilling contests of the year. The result was uncertain right up to almost the end. Both Mirror and Red Deer were playing errorless ball. The pitchers were going strong and getting good support from a non-idle batsmen. Red had waged on the final outcome, the excitement was intense. There was no score on either side up to the eighth inning, although McLaren, playing for Red Deer, came within an ace of stealing home. Red went to bat in their half of the ninth, but failed to score. In the ninth, Mirror went to bat and there were two more down and it looked as if the game was going into extra innings. Busbee managed to reach first on a wild pitch and then hit a single. Murray came to bat and with two strikes on him, he rose to the occasion and landed a hit between the infield and outfield. Busbee had a wild grade which was afterwards accepted by other creameries, showing his intent to deal justly and maintain the standard of his outfit. In this instance he awarded a customer No. 1 above the government grade No. 2, and in the second he paid a patron special which he had earned. To the latter the daily records as tested by the grader. In both instances the change was the correct grading according to the manager's life and experience. And in the bargain, these men were used as a special at various other creameries.

The justice of the management's change of grade in the

## CREAM PRODUCERS NOT SATISFIED

On Tuesday afternoon, July 29, in the before Post-Magistrate of Camrose, the management of The Meadow Creamery was convicted of two infringements of the Cattle Tax Act, namely, to a sum of \$100 and costs, and in a second \$75 and costs, the third charge being dismissed. The three charges were preferred by the Department of Agriculture, through their representative Mr. Pearson, and we are follows:

1.—"Raising the grade" contrary to the Act; 2.—"Raising the grade" by reason of raising the grade 3.—"Statement issued not having the named person to whom it was consigned."

The case in the court was very unpopular, for it was a case of a man doing the right thing by his customers, as it was proven that Mr. Larsen had on various occasions been compelled to sell a lower grade which were afterwards accepted by other creameries.

Red Deer added several new players to their line-up and Red won the tournament, as there appeared to be lots of money to back up their confidence in the home team. The Mirror batsmen indeed did very well, and the defense at the Imperial hotel, Mirror, and Manager Croxton, has an idea that this is where it is going to remain for a couple of years.

The tournament at Camrose last Thursday, Friday and Saturday involved some of the best teams in Alberta, and such teams as Tolfield, Ryley, Viking, Vegreville, Macklin, Camrose, Sedgewick and Mirror were entered for the prize money.

After a hard day's work for the first day with Viking as their opponents, and unfortunately they lost, a number of errors and some lucky hits gave the Viking team a lead, and the Mirror found impossible to overcome, and as things turned out Viking trudged through and won the final of the Camrose tournament.

According to the arrangements, the winners of the Red Deer and Camrose tournaments were to play off for a purse of \$250, and as Mirror had won the former, they took the two teams together again for the last game of the series.

Turner was on the mound for Mirror, and with the help of his teammates, turned in a no-hitter, managing to beat Viking 7 to 0.

It certainly speaks volumes as to the ability of the Mirror players as well as the management of Mr. Croxton, who they can start out and beat the best in this part of the province in so decisive a fashion.

The Mirror team will go to Edmonton on Friday to take a hand in the baseball tournament being held in that city this last week of July. Lamont, Tolfield and Edmonton are the other teams competing, and they will have to travel the limit to beat out the team from this neck of the woods.

## NEW PROPOSAL FOR COMPLETION OF H. B. ROAD

Winnipeg.—A special despatch from Ottawa says: "Details became available of a proposition which is being made to construct by a company which would purchase the Hudson Bay Railway. The company would complete the line, develop the harbor works and provide the necessary equipment. As a condition precedent to all this, it would put up a bond of \$20,000,000."

"People behind the proposition are now said to be in New York arranging for the bond, and if it forthcoming the Government will consider the matter."

"The proposed memorandum of agreement provides that:

(1) That the Government is to sell the Hudson Bay Line, as it now stands, for \$8,000,000.

(2) Lease the harbor improvements at Port Nelson and all other ports for \$1,000,000.

(3) That no other company be allowed to build in the territory for the next 21 years.

(4) That 10,000 square miles adjacent to the railway be set aside for settlement, and as each settler locates, a town is to be given.

(5) That it be empowered to construct branch lines towards Winnipeg and the States and also to the Pacific coast. Mineral rights for ten miles on each side of the road to be allowed.

"The company undertakes:

(1) To put up \$30,000,000 bond for specific performance of the contract.

(2) To complete the road and Nelson harbor and operate the entire line within 10 years.

(3) Spend \$4,000,000 on harbor works and elevators.

"In 25 years it guarantees to return the whole thing to the Government if interest were paid on the outlay."

## Superiority of British Law

Crinical Justice in U.S. Injured By Newspaper Publicity Says Chicago Paper

Chicago.—A criminal justice in the United States is now a Roman law, held up to the fire of the Chicago Tribune, says editorially, pointing out the superiority of British law in regard to the conduct of trials.

"The Franks case has been a three months' moral pestilence imposed upon our people before the trial," says the Tribune. "It is a case which, in instance of what has happened with increasing frequency for two decades since the Thaw trial, is before."

"The injury to justice is in the public eye of the trial. No criminal trials before it can be avoided, has become an abomination. The dangerous initiative that newspapers have taken in judging and convicting out of court is journalistic lynching."

"Proceeding against, not hating, can be done with the theories and confessions. Defence attorneys do the same. Neither dare do otherwise. Half-witted juries or prejudiced juries are inevitable in the United States. The German states that Germany re-ceive guarantees against further sanctuaries and that the period of occupation in the bridgehead zone be culminated from October, 1925."

The paper says it will oppose all proposed settlements which do not meet with its approval.

## Valuable Mineral Discovery In Peace River Country

Edmonton.—Alta.—One of the most valuable minerals in the world today, iridium, has been discovered in the upper waters of the Peace River by the Canyon Gold Mining Company. A representative of the Edmontons, symbol of the north, after bringing filed claims for ten miles along the river, and he is of the opinion that a real old-time stampede will result from the discovery. The prospector, when drivers of the Canyon Gold Mining Company, drilling for gold, discovered quantities of the metal on the red rots.

## Decrease In Bank Clearings

Considerable Drop Shown In Business Transacted During June

The bank debts or the amount of cheques charged to individual accounts at the clearing house centres of Canada are reported to the value of \$1,000,000,000. These were \$2,654,775,411 in June, as compared with \$2,290,109,812 in the preceding months. This represents a decline of more than \$232,900,000 or 10.1 per cent. Nearly half of the decrease is due to the fact that the banks have some and some part of the remainder is due to the fact of there having been five Sundays in June this year.

The decline in June was equivalent to the amount of decrease that was made for the seasonal variation. Another contributing cause of the decline was the dropping off in government business, as shown by a fall of about \$30,000,000 in the bank debts of Ottawa.

The bank clearings declined from \$1,421,500,000 in May to \$1,255,900,000 in June or about 12 per cent. When corrected for seasonal variation by dividing by the number of days in the month, the adjusted clearings declined 7.3 per cent.

The company undertakes:

(1) To put up \$30,000,000 bond for specific performance of the contract.

(2) To complete the road and Nelson harbor and operate the entire line within 10 years.

(3) Spend \$4,000,000 on harbor works and elevators.

"In 25 years it guarantees to return the whole thing to the Government if interest were paid on the outlay."

## Nationalists Adopt Belligerent Attitude

Government Receives Resolution Containing Demands of German Party

Berlin.—The German National party, which is the party of the revolution which it has sent to the Government, demanding that Germany should not participate in the London wireless telegraphy committee, which was appointed some months ago to improve the wireless telegraphy and wireless control. Robert Donald was chairman of the committee, which was sent to the Government last February.

The Nationalists recommended clearly that the state, through the post offices, should own all wireless stations in Great Britain for communication with the overseas dominions, colonies and territories; that the post offices should be in charge of all wireless stations in Great Britain; that, as an alternative, an exemption be made in the case of Canada, and that competition between post office and private enterprise in the Anglo-Canadian wireless service should be prohibited.

It was further recommended that, in the event of war, all wireless stations be continued, provided that in any license granted for the Anglo-Canadian service, public interests are safeguarded, and terms of compensation by the state; that private enterprise be given the right to compete with wireless communication with France, as the rest of the world outside the British Empire.

Mr. Hartshorn added that the Marconi company, making wireless, had regard to the government proposal with regard to the "beam" stations, and definitely arranged to erect a "beam" station in Canada. The government had been prepared to grant a concession in a trial of the new "beam" system, and an agreement would soon be submitted for the approval of the House of Commons whereby the Marconi Company would have a head start in getting into Britain for communication with Canada, which would be capable of extension to South Africa and India and also Australia.

—

Want Reimbursement Action

Toronto.—"The committee decided on active work from now until the next session of Parliament and the present demand of the Canadian government that the Canadian government should be fully expected that early in the next session the Government would deal with the moral claim of depositors and would take steps to reimburse them.

A Heavy Sentence

Los Angeles.—Seized to read every newspaper in the city, he died after six months of rewriting the tragic accident story in them in his own handwriting was the punishment meted out here to W. G. Lovell, 18, charged with speeding.

## Going Direct to Alberta

Prince to Avoid All Stops On Way to Ranch

London.—The Prince of Wales, who, as Lord Renfrew, will sail for the United States on the *Empress of Canada* on August 22, will leave the ship on a tender and land at Long Island, the Canadian Press learns. At the conclusion of the international polo matches between teams representing Great Britain and the United States the Prince will take a train from New London, Connecticut, to Calgary direct. He is anxious to avoid stopping in cities on either side of the border while on the way to his ranch in Alberta.

Australia Plans Big Exhibition

Sydney, Australia.—A great international exhibition in Australia's proposed capital city, Canberra, is to be held at Woombye has been impressed with the publicity value of the British Empire Exhibitions and believes that similar publicity would benefit the inland continent if an international exhibition were held in Australia.

## Escapes Death Penalty

Eskimo Sentenced to Serve Five Years In Penitentiary

Edmonton, Alta.—One of the most valuable minerals in the world today, iridium, has been discovered in the upper waters of the Peace River by the Canyon Gold Mining Company. A representative of the Edmontons, symbol of the north, after bringing filed claims for ten miles along the river, and he is of the opinion that a real old-time stampede will result from the discovery. The prospector, when drivers of the Canyon Gold Mining Company, drilling for gold, discovered quantities of the metal on the red rots.

The judicial party was held up at Aklaivik only a day or two by the delay in bringing Eskimo witnesses, so that the indefinite postponement of the trial reported in northern wires the other day did not affect the case.

Judge Leask, with Mrs. Dubuc; Miss Yvonne Richard, the judge's secretary; Irving Howatt, crown counsel; and J. Bird McIlrath, solicitor, all Edmontonians, are now at McMurdo, having completed their river journey of several thousand miles without mishap. The Eskimo prisoner, in charge of the Mountie Police, was brought to McMurdo on the same boat, and will be taken to Stony Mountain penitentiary at once.

## NEW WIRELESS SYSTEM TO BE TRIED IN CANADA

London.—Vernon Hartshorn, Postmaster-general, announced to the House of Commons that the Government had decided to adopt the main recommendations of the Imperial wireless telegraphy committee, which was appointed some months ago to improve the wireless telegraphy and wireless control.

Robert Donald, chairman of the committee, which was sent to the Government last February, recommended clearly that the state, through the post offices, should own all wireless stations in Great Britain for communication with the overseas dominions, colonies and territories; that the post offices should be in charge of all wireless stations in Great Britain; that, as an alternative, an exemption be made in the case of Canada, and that competition between post office and private enterprise in the Anglo-Canadian wireless service should be prohibited.

It was further recommended that, in the event of war, all wireless stations be continued, provided that in any license granted for the Anglo-Canadian service, public interests are safeguarded, and terms of compensation by the state; that private enterprise be given the right to compete with wireless communication with France, as the rest of the world outside the British Empire.

Mr. Hartshorn added that the Marconi company, making wireless, had regard to the government proposal with regard to the "beam" stations, and definitely arranged to erect a "beam" station in Canada. The government had been prepared to grant a concession in a trial of the new "beam" system, and an agreement would soon be submitted for the approval of the House of Commons whereby the Marconi Company would have a head start in getting into Britain for communication with Canada, which would be capable of extension to South Africa and India and also Australia.

## Victim of Assassin's Bullet

Escaped Death Penalty

Eskimo Sentenced to Serve Five Years In Penitentiary

Edmonton, Alta.—There will be no hanging in the Arctic this year. Iakuplak, chief with the Esquimaux, his wife, wife of Havagash, was found guilty of manslaughter only, and sentenced to five years in Stony Mountain penitentiary, according to advice received here.

The judicial party was held up at Aklaivik only a day or two by the delay in bringing Eskimo witnesses, so that the indefinite postponement of the trial reported in northern wires the other day did not affect the case.

Judge Leask, with Mrs. Dubuc; Miss Yvonne Richard, the judge's secretary; Irving Howatt, crown counsel; and J. Bird McIlrath, solicitor, all Edmontonians, are now at McMurdo, having completed their river journey of several thousand miles without mishap. The Eskimo prisoner, in charge of the Mountie Police, was brought to McMurdo on the same boat, and will be taken to Stony Mountain penitentiary at once.

## Tax On Grain Trading Is Allowed to Stand

Ottawa.—Disallowance of the Manitoba tax on trading in grain on the Winnipeg Grain Exchange has been waived by the Federal Government. It was intended to be ruled by the Privy Council—when it sat in October, it heard, it is expected, at the Government's insistence, that the Manitoba Legislature had agreed to waive the tax on grain trading in Manitoba.

Edmonton, Alta.—The tax was passed at the 1922 session of the Manitoba Legislature. Shortly after the Government of Saskatchewan proposed to disallow the Manitoba statute on the ground that it was beyond the powers of the Manitoba Legislature to enact, it was passed by the Saskatchewan Legislature.

Ottawa.—The Empire Food Committee, which the Government has appointed to deal with the grain situation in Canada, has indicated its willingness to participate in the negotiations, but negotiations have not yet advanced to the stage of definite appointment.

The round-table conference on imperial relations suggested some weeks ago that the Canadian Government, Colonial Secretary, is still very much in the air. No formal invitation has yet been issued and there therefore been no consideration so far of Canadian representations.

In view of the time of preparation and the time necessary to bring ministers from distant dominions like Australia and New Zealand, the conference could not be held till towards the close of the year. The Canadian government has indicated its willingness to participate, but the negotiations have not yet advanced to the stage of definite appointment.

The grain question to be determined is whether the lower rates of the Crow's Nest schedule are to be continued to the original territory, served on the C.P.R. in 1897, or made general to the whole country.

The Canadian government has indicated its willingness to participate, but the negotiations have not yet advanced to the stage of definite appointment.

The Canadian government has indicated its willingness to participate, but the negotiations have not yet advanced to the stage of definite appointment.

The grain question to be determined is whether the lower rates of the Crow's Nest schedule are to be continued to the original territory, served on the C.P.R. in 1897, or made general to the whole country.

The Canadian government has indicated its willingness to participate, but the negotiations have not yet advanced to the stage of definite appointment.

## WILL APPOINT CANADIAN FOR FOOD COMMITTEE

Ottawa.—The Government will appoint a nominee to the Empire Food Committee proposed by the British Government.

The proposal arises from the suggested permanent economic committee which Canada opposed at the Imperial economic conference. The proposal, however, is to disallow the Manitoba tax on trading in grain on the Winnipeg Grain Exchange.

In the case of the Manitoba tax, it is indicated the Canadian government indicated its willingness to participate, but the negotiations have not yet advanced to the stage of definite appointment.

In the case of the Canadian government, the Canadian government indicated its willingness to participate, but the negotiations have not yet advanced to the stage of definite appointment.

### WORLD HAPPENINGS BRIEFLY TOLD

A New York woman has won \$500 in a piano contest for the best piano play.

The attendance at the Empire Exhibition since the opening exceeds 7,500,000.

Sir William Abbot Herdman, one of the best known marine biologists in Great Britain was found dead in his hotel room.

Parliament meets again in January unless something transpires in the recess to prevent it being summoned, Premier King announced.

The British Labor Government has been re-elected for the tenth time in the House of Commons, but it has no intention to resign.

Miss Mary Power, who was born at the naval dockyard, Halifax, on July 22, 1921, celebrated her 18th birthday yesterday, apparently perfectly healthy and the use of her faculties.

The United States has declined to adhere to the proposed League of Nations treaty providing for mutual guarantees as the basis of world disarmament.

Steps toward more normal relations between France and Russia are foreshadowed in letters exchanged between Premiers Herriot and M. Tcherniaev, published in the *Forwards* Miller, published at Paris.

The Caproni airplane school, Milan, Italy, is building a new machine equipped with three 200-horsepower motors intended to have a cruising radius so great that it will be able easily to fly to the Atlantic Ocean.

The little principality of Liechtenstein, perched up in the Alps between Austria and Switzerland, is planning to annex itself to the Swiss Republic. Liechtenstein is one of the smallest countries in Europe, being 15 miles long and five miles wide.

Corns cause much suffering, but Holloway's Corn Remover offers a speedy and effective remedy.

Worship First, Care Second.

Dates for Alberta's first corn show have been set for November 13 and 14 at Medicine Hat. This year about one hundred thousand acres of corn are being grown in Southern Alberta.

### ITCHY RASH IN SPOTS ON HANDS

Could Not Hands In Water, Cuticura In.

"A red rash broke out in spots on my hands. I did not pay much attention to it at first, but later the irritation increased and I began to feel so much itching and burning that I could not put my hands in water. This caused me to scratch the affected parts."

"As soon as I began to use Cuticura Soap, I found that the trouble began to get better. I continued to use Cuticura Soap and it completely healed." (Signed) Mrs. H. W. Day, Hillside Farm, Westerville, Ohio.

Cuticura Soap. Ointment and Talcum promote and maintain skin purity, and keep skin healthy when all else fails.

Sample Sachet Free by Mail. Address Canadian Cuticura Soap Co., 1000 Yonge Street, Toronto, Ont. (Dept. M.)

For our new Shaving Soap.

### A Coming Development

Great Industrial Movement May Be Expected in the Western Provinces

A few weeks ago a report emanated from Edmonton that negotiations were under way for the establishment of a wheat mill at a point some sixty miles from the Alberta prairies. More recently it has been reported from Winnipeg that work on Manitoba's first sugar beet factory will be started this fall. There has been a rumour that an extensive packing plant to be established in Saskatoon. The milling industry is already represented on the prairies by a number of important establishments. Another great industrial development may be expected to take place in these provinces.

Wisconsin, a state situated not unlike the prairie provinces, supplies a third of the total canola seed in the United States. There is no reason why eventually a large proportion of all the agricultural produce raised in the prairie provinces should not be manufactured or packed and marketed close to the areas on which it is produced.

The tremendous distances which separate the farmers on the prairies from the markets in which they now dispose of their produce demand that to bear a heavy loss in freight charges, the cost of which literally lessened if freight had to be paid only on finished or semi-finished products.

The perishability of many kinds of produce would make the profitable value of the products at great distances from market—and thus restricts the variety of the products of a farming district not within easy access to a canner or packing plant. The prairie provinces have shown by their prize winnings at international exhibitions that they can raise a great variety of vegetables in competition with other parts of the continent. There is no reason why the products of these provinces to dispose of their vegetables to canneries or sugar factories located strategically through the producing districts there is no doubt that they would be paid only on finished or semi-finished products.

The perishability of many kinds of produce would make the profitable value of the products at great distances from market—and thus restricts the variety of the products of a farming district not within easy access to a canner or packing plant.

### Wasting Public Money

Governing Bodies Should Have Some Regard For Economy As Individuals Do

There are at all times many things that cities would like to have or do that they really cannot afford. It is foolish to talk about, and much more foolish to do, than to do. Cities, states and the nation are prepared to follow the rule followed by sensible individuals and do without things that are beyond their means. There is no reason why a city is looked on either as a foolish man or a vulgar man.

There is no reason why a city is looked on either as a foolish man or a vulgar man.

There is no reason why a city is looked on either as a foolish man or a vulgar man.

There is no reason why a city is looked on either as a foolish man or a vulgar man.

There is no reason why a city is looked on either as a foolish man or a vulgar man.

## Mirror and the District

August comes next.

Dr. K. MacLennan was in Edmonton over Sunday and Monday.

Regular meeting of the village council on Tuesday evening, August 5th.

John Sorum is building a tile and cement house on his farm, South Buffalo Lake.

Miss Millie McLeod, of Edmonton, is home recuperating after an attack of scarlet fever.

Miss Irene Minge, of Bawlf, is returning to the local telephone office for the next two weeks.

Mr. and Mrs. F. G. Pern are in Edmonton this week, taking part in the provincial tennis tournament.

Misses Florence and Mae Annesley and brother Jack, are visiting for two weeks with relatives in Saskatoon.

Miss Gladys Mitchell left for her home in Edmonton on Monday after a visit with relatives and friends in the district.

Jas. Brindle left on Tuesday for an extended visit with his daughter, Miss Sara Brindle, at Chilliwack, and other points in the East.

Mr. K. MacLennan expects to leave this week for a six weeks' holiday at Toronto, Ottawa, Montreal and other points in the East.

Miss Helen Robbins, of Blairmore, has accepted the position of teacher for the junior intermediate class of the Miramichi school.

The eighth annual fair of the Bashaw and District Agricultural Society will be held in Bashaw on Monday and Tuesday, August 11 and 12.

The library in connection with the Mirror Library Women's Institute, will be open to the public every Saturday afternoon from 2 to 4 p.m.

M. Ethel Horner, Registered Optometrist and OPTICIAN, will make her next regular visit to Mirror, at the Imperial Hotel, on Wednesday, Aug. 27th. 3:30 p.m.

A fire was started in an office in a neighboring town recently, with the proprietor lit his pipe and threw the supposedly burnt out match into the waste paper basket.

Miss A. E. Bull, of Calgary, who has been visiting her brother, D. E. and Mrs. Bull for the past few days, left to-day (Wednesday) for a short visit with relatives at Stettler.

Miss Margaret McLean returned on Saturday to a noon from a vacation, which she had evidently undertaken a number of weeks on her ear, and is now enjoying better health than she has had for some time.

Miss Janet Oldring received word on Saturday that she had been accepted in the third year primary examination of the Toronto Conservatory of Music. Janet is a pupil of Mrs. J. F. Baugh and tried the examination at Camrose.

The distressing experience of one of the young girls of Mirror, who was swimming while at the lake bathing last Friday should be a warning to parents not to allow their children to go to the lake alone, but always see that there is older person with them. Although the rescue has been made for the moment, he has not yet been apprehended.

The amount taken at the first meeting was \$35.55, while at the last meeting the amount was \$83.75. Our Ladies Aid will be eighteen years old November 2nd, 1924, and at no time in the life of the organization has it been wanted, but rather has increased from year to year. It has grown in membership and sizeability and is a valuable asset to our church.

"Comparing the truth in love," may "grow up into Him in all things, which is the head, even Christ, from whom the

whole body fitly joined together and compacted by that which every joint supplieth, according to the effectual working in the measure of every part, maketh increase of the body unto the edifying of itself in love."—By Mrs. A. J. Ray, Mirror.

### Cream Producers Not Satisfied

(Continued from page one) second charge was further substantiated by the present witnesses, who stated, "that in the one case his cream could not have been other than special to the prevailing conditions and shipping time—a week, while the other man said his cream was only fair.

At the mass meeting of cream producers held in the convention hall on Tuesday afternoon, the charges directed against the Meadow Creamery of Alix, the Connaught Creamery, were discussed and by resolution, which carried unanimously, the magistrate was fully sustained in the judgment he rendered.

After the adjournment of the meeting, the question as to far as the present system of cream grading and the general conduct of the creamery business is concerned, was submitted to the meeting, a resolution committee, which was composed of Messrs. Robertson, barrister, Bashaw, Scott, of Gadsby, and L. A. Gordon, of Alix, was read at the meeting and carried unanimously.

At a mass meeting of cream producers held in Alix on the 22nd of July, the following resolution was passed:

"That meeting of cream producers assembled in Alix after hearing the evidence produced in the trial of N. L. Carson, of Meadow Creamery Company, for infractions of the Milk Act relating to Creameries, has come to the conclusion that the present act puts too much power in the hands of those who are not too often men of little experience. It further takes from the manufacturers in a great measure the power of conducting his own business to the satisfaction of both himself and his patrons."

We believe also that while Mr. Larsen may have overstepped the mark, it is not so bad. Let him be in no way injured in the spirit of the act and we have confidence by reason of Mr. Larsen's lifetime experience in handling dairy products, that he will not abuse his power, but between himself and the grain farmer, is worthy of greater weight.

After dealing with Mr. Larsen for a number of years, we are firmly convinced of his fair and upright conduct, and that today's proceedings, while no doubt legally correct, constitute a grave miscarriage of justice."

It further resolved that a copy of this resolution be sent to the Premier of this province and the minister of agriculture.—"Aix Free Press."

It is now established as a practical certainty that Alberta's grain crop will be below average, taking the province as a whole. Summerfallow lands will yield grain in the fall, but with a few localities promising very good yields. So far as the remainder of the crop area is concerned, the yield will be less than fifty per cent. even in certain districts in the south eastern part of the province there will be a very light yield.

Wheat, oats and barley over most of all the grain growing areas will be harvested on the 20th of September. Harvesting is expected to commence about August 20 in southern districts and a week or two later in central and northern districts.

**Born**  
In the Lakeland District, on Wednesday, July 23rd, 1924, to Mr. and Mrs. G. P. Puffer, a son.

**Janitor Wanted**  
For school, duties commencing 1st September. Will be required to keep up school and grounds and make general repairs. Apply, stating wages desired, to MRS. G. K. THILLEY, Secretary, Mirror Cons. S.D., Mirror, 3222.
